Unit I: 10 Sessions

1. Overview of Operations Research (OR)
   1.1 Origin of OR
   1.2 OR Models and Modeling
   1.3 Application and Scope of OR

2. Linear Programming Problem (LPP)
   2.1 Introduction and General Mathematical Formulation of LPP
   2.2 Assumptions of LPP
   2.3 Formulation of LPP – application of LPP
Bachelor of Business Administration (BBA) Syllabus

2.4 Graphical Solution
2.5 Dual formulation of LPP

Unit II: 10 Sessions

1. Transportation Problems (TP)
   1.1 General Mathematical Formulation of TP
   1.2 IBFS using North West Corner Rule (NWCR), Least Cost Method (LCM) and Vogel’s Approximation Method (VAM)
   1.3 Optimum solution using Modified Distribution (MODI) method
   1.4 Solutions of TP under special cases of degeneracy, multiple, unbalanced, restricted and maximization.

Unit III: 10 Sessions

1. Network Models and Methods
   1.1 Introduction to network, network diagram, concepts of event and Activity, critical path
   1.2 PERT
   1.3 CPM
   1.4 Forward pass, Backward pass
   1.5 Calculating EST, EFT, LST, LFT, Float of an activity and event

Unit IV: 10 Sessions

1. Game Theory
   1.1 Introduction of Game Theory and some basic terms
   1.2 Pure and Mixed strategy games
   1.3 Two-Persons Zero-Sum Games
   1.4 The Maximin- Minimax Principle
   1.5 Games without saddle point (Mixed strategies)
   1.6 Reduce game by Dominance

2. Assignment Problems (AP)

   2.1 General Mathematical Formulation of AP
   2.2 Hungarian Method of solving AP
   2.3 Solutions of AP under special cases of unbalanced, maximization & restricted
Assignments:

Assignments on Linear Programming Problem
Assignments on Transportation Problems
Assignments on Network Analysis
Assignments on Game Theory and Assignment Problem

Seminar Topics:

Prepare a project on application of Linear Programming Problem
Prepare a project on application of Assignment Problem

Introduction: The role of HRM in organizations has gained tremendous importance over the years. It has come some way from ‘Personnel Management’ and today, is looked upon as a strategic partner. Organizations with global presence, movement of workforce across geographical boundaries have challenged the HR function as never before. The aim of this course is to provide the under-graduate students with some knowledge about the important sub-functions of HRM; functions that have not been covered in the core courses Basic Human Resource Management and Human resource Management in Semesters III and IV.

Objectives: To provide students an understanding of:
1. The strategic Role of HRM,
2. The environment in which the HRM function is performed,
3. The meaning and difference between Performance Appraisal and Performance Management,
4. How strategic pay plans and employee benefits are determined.

SEMESTER VI
COURSE CODE-313
GRAND PROJECT, PRESENTATION AND VIVA-VOCE

Introduction:-
The BBA programme aims at providing a practical insight to the student in the various functions of business enterprises. It is this aspect which gives a learner an edge over other programmes in same area. Lack of industry exposure would prove fatal and hence a student of management needs to undergo practical training to sharpen his theoretical skills and knowledge. Further from here, the students are likely to take off into junior managerial level jobs and/or post graduation in management.

Objectives:-
During the first year semester II, students go for an industrial visit and get a general overview of the functioning of the business enterprises. During the second year semester IV, the students are supposed to visit any organization and study details of functional areas. In line with this, the third year semester VI students are supposed to analyse any particular products/industry in detail from macro and micro perspectives. This work is prescribed to be done in groups so that the students learn positive group dynamics and use it to their best.

Total Hours: 40

   - Economics
   - Costing
   - Operations research
Bachelor of Business Administration (BBA) Syllabus

-Any other relevant topic permitted by the director of the institute can be taken for grand project work. The topic should be research based and must be authentic work of the students. Primary data collection is a must.

1. **Format of the group project:-**

   The project should be based on the following format:-

   a. Introduction to the topic including macro (external environment and industry) analysis, and micro (particular industry or firm under study) analysis.

   b. Research Methodology including the rationale for the topic, type of research design, sources of data, sampling method, sample size, any statistical tools used and limitations of the study.

   c. Findings and analysis of the study including graphs and statistics.

   d. Conclusion, Recommendations and Scope for further study in future.

   e. Bibliography, References, Statistical calculations and tables; if any.

2. **Assessment:-**

3. **Guidelines for assessment:-**

   a. The pattern of assessment for internal and external component will remain the same for grand projects.

   b. The project report will be assessed on the basis of one group report submitted by students. Individual copies of the project must be produced during external exam and must be checked and signed by the external examiner also. The pattern of the project report must be as prescribed earlier.

   c. Power point presentation of the group project must be done by students during both internal and external assessment. The presentation should be divided among all the group members in such a way that the entire project contents are covered. Each student should present for 2-3 minutes on his/her allotted section.
d. Power point presentation should be followed by individual viva voce. In this exam, the student should be able to answer on the entire project and also related topics; and not only on his section of the presentation.

e. A hard copy and a CD of the power point presentation done during internal assessment must be produced at the time of external assessment too.
Introduction: The role of HRM in organizations has gained tremendous importance over the years. It has come some way from ‘Personnel Management’ and today, is looked upon as a strategic partner. Organizations with global presence, movement of workforce across geographical boundaries have challenged the HR function as never before. The aim of this course is to provide the under-graduate students with some knowledge about the important sub-functions of HRM; functions that have not been covered in the core courses Basic Human Resource Management and Human resource Management in Semesters III and IV.

Objectives: To provide students an understanding of:
1. The concept, objectives and statutory provisions regarding employee discipline,
2. The concepts of Human Resource Development and Talent Management,
3. Managing careers and mentoring
4. The contemporary issues of HR.

PORTFOLIO MANAGEMENT

Introduction
Over the years, the investment decisions were made by the whims and fancies of the investor and rumours heard rather than rational analysis. Security Analysis and Portfolio Management has recently emerged as a separate discipline in India. Portfolio Management, which deals with rational investment decision making process, has become more significant today than ever before with economic liberalization and introduction of computerized on-line trading.

Objectives
The course aims at providing an insight into the basic principles, phases and theories of portfolio management. It also aims at imparting knowledge about various aspects of portfolio management such as economy, industry, company and technical analysis.
