Theory
Theoretical perspectives provided in the programmes hope to achieve the following objectives:

1. Acquire knowledge of the functioning of individuals and groups in social systems, the interrelationships between them and the manner in which they promote or impede a healthy social functioning, Obtain knowledge from other disciplines which contribute to the understanding of persons in the bio psycho-social matrix,

2. Develop professional capacity for identification of issues and problems violating the human rights of groups and communities and design effective responses for affecting a meaningful change in their
situation,
3. Attain the capacity to select and order priorities, to plan, to make realistic goals, and select appropriate strategies to fulfill the goals,
4. Develop skills in the utilization of social work intervention methods and adopt ethical practices using the principles of the profession while working with individuals and families, groups and communities.

Field Work

Field Work is an integral part of the training in social work. It comprises learning professional social work practice under the guidance of trained field instructors in selected Government and Non-Government organizations. It enables the student to see the applicability of theoretical knowledge taught in the classroom to actual situations requiring social work intervention. It is both goal-oriented to solve a particular problem to which the student addresses her/his activities and learner-centered in relation to her/his particular interest areas and aptitudes. Field work has the dual purpose of promoting the student’s own learning while contributing to the development of the people with whom she/he works, especially, the disadvantaged sections of our society.

Practical experience in fieldwork aims at the following objectives:

1. provide opportunity for the integration of classroom learning and field practice and vice versa (feedback mechanism for both class and field),
2. Develop skills through learning how to utilize the knowledge learnt in the classroom for analysis of problems affecting the target groups and selection of the appropriate means for problem-solving,
3. Cultivate attitudes, values and commitments of the profession relevant to working with the most disadvantaged sections of society,
4. Develop awareness of self and the way in which student’s behavior is affected by past experiences and cultural factors, and the way in which these affect the perceptions of their response to others.
5. Students will be required to maintain regular recordings of the fieldwork done during the course of their study.
6. All students are required to dress soberly and appropriately, giving due respect to the socio-cultural practices of the people whom they work with while at fieldwork. A similar sobriety in dress code is also expected from students within the College premises and hostels

Note : for Detail guideline of field work please visit to the Department / college

The aim of study tour is to provide an exposure for the students to other Schools of Social Work and well known organizations (common and specialization based) involved in the practice of social work outside of the Ahmedabad city. The Place and the days shall be decided by the department in consultation with the students. The students are expected to observe the differences and organizational culture in such organizations with respect to their concurrent field work agencies in terms of service delivery. A detailed report of the study tour has to be submitted to the department immediately after the study tour.
Field work Supervision:

Supervision is the basis of practice learning. The objective of supervision is to guide a student to acquire social work skills and attitudes required for the profession and to relate field practice to knowledge acquired in the classroom. This objective is achieved by placing the students under the supervision of a teacher in the Department as well as a trained social worker in the agency. The guided supervision through individual and group conferences on specified days and timings helps a student grow as a better professional.

The supervisor’s primary task in the beginning is to make the student feel comfortable and apprise him/her briefly of the social work values and skills. At the onset of the supervisor-supervisee relations, the supervisor must make some assessment of the student’s ability for social work intervention and his/her individual assets, which create suitable learning opportunities and environment. The Supervisor must strive to:

- Help create a non-intimidating and non-authoritarian ambience of learning which help the student raise his/her queries and participate in the discussion
- Help the student develop the capability to critically examine issues and instances from the field
- Assist the student develops maturity in dealing with difficult situations and circumstances and learn to appreciate and respect multiplicity and diversity of communities and culture
- Help him/her grow as professional social worker, conscious of the requirements of the profession and develop capability to manage situations independently
- Help the student to present and discuss his/her views, feelings and proposed action in a democratic manner and setting
- Provide feedback to the students about their performance
- Encourage debates on the alternative courses of action and help the student to take appropriate decisions
- Enable the student to develop an agenda of self-directed life long learning for personal and professional development for a career in the profession of social work including continuing social Work Education
- Arrange periodic meetings with agency supervisor wherein the proposed course of action by the student is discussed and an affirmative response is obtained from the agency.
- Provide guidelines to the student on his/her records. It should be seen that the records should not reflect merely the diary or chronological recording of the time spent in the field. While commenting upon the gaps in recording, insight on the nature of improvement to be made by the student may be discussed.

Relationship between Department and Field Work Agency:

The Relationship between department and field work agency is one of equal partnership where both department and agency supervisor take the responsibility for students learning and acquisition of Social Work Skills.
Distribution of Responsibility between Department and Agency Supervisors:

A. Department Supervisor:

Department Supervisor concentrates on helping the students to understand the basics including rules and regulations of field work programme. In addition, the supervisor helps the students to:

a. Grasp the field and prepare him/her for accepting the agency’s policies and programmes.
b. Develop insight into the processes of Social work intervention using social work philosophy, principles, methods and skills.
c. Provide instructions for report writing including maintaining case records, group session records, preparing papers and minutes for group conferences.

In order to be effective in performing the above mentioned responsibilities the Department Supervisor provides regular, timely and systematic inputs. This will entail regular submission of students weekly reports, discussing the same with students during scheduled individual conferences, and regular evaluation of students work though monthly evaluation of student’s performance.

B. Agency Supervisor:

1. Agency Supervisor should preferably be trained social worker. He/She should;
2. Provide an overview of the agency, its aims, objectives, policies and programmes and limitations to the students placed under his/her supervision.
3. Plan out students work programme along with Department Supervisor so as to maximize students learning.
4. Provide on the spot guidance to facilitate learning of the student.
5. Provide appropriate intervention in the event of the students facing problem/s viz agency’s procedural routines, relationship with other staff members etc.
6. Agency Supervisor provides student/s with adequate and scheduled time (on a weekly basis) to discuss students problem and progress.
7. Agency Supervisor provides the students with a place to sit and keep his/her field work files/records.
8. Agency Supervisor insists on submission of weekly fieldwork reports by students. They should be advised to go through them and give their comments.
9. The agency Supervisor should ensure that log sheets reflect the actual work and fieldwork hours being put in by the student. Only log sheets which have been duly filled in by the students should be signed by the agency supervisor on regular basis.
10. Agency Supervisor should keep a check on the students’ regularity and punctuality. Some system of ensuring this (attendance register) could be worked out by the agency supervisor and should feel free to contact the Department Supervisor.

Nature of Relationships between the Field Work Department and the Agency:

1. Department should maintain regular contact with all the agencies. Mechanisms to do so could include
   A. Regular visits by Department Supervisors to agencies.
   B. Agency Supervisor will be invited as resource person for the Supportive Field Instruction Programme of the Department.
   C. At least one ‘Agency Supervisor Meet’ is organised at the Department annually. This can comprise of a general meeting followed by working groups based on different areas of field work practice. It
is mandatory for all Department Supervisors to attend the meet. It is a formal meeting with well-defined agenda proposed by the Head of the Department.

D. Agency should be provided with contact numbers of Department Supervisors and the Field Work Office to facilitate interaction.

2 There should be a clear policy for selection of appropriate agencies. In case an agency is discontinued (either temporarily or permanently) for the concurrent field work the agency will be intimated about the same by the Social Work Department.

**Frequency and minimum contact with the Agency:**

A. Department Supervisors should make a minimum of one visit per month to the agencies where their students are placed.

B. The first visit by the Supervisor should be devoted to helping the agency supervisor get an understanding of the Field Work programme and policies. Department supervisor, in turn, should learn about agency’s objectives, programmes and procedural routines. Department and Agency Supervisor should also discuss the broad scope for students learning within the agency’s structure and policy frame work.

C. The subsequent visit should focus on the development of a term plan for the student, keeping in mind the agency’s requirements and students learning needs.

D. The last visit of the first and third terms should aim at assessing students’ progress and discussion on the thrust of learning for the next term.

E. The first visit in the second and the fourth term should focus on discussing the plan of the work for the team. Care should be taken to ensure that the student derives a comprehensive exposure to all aspects by the agency.

F. The last visit of the each Semester should be focussed on the evaluation of the students work during the course of the semester. Additionally, the Department Supervisors can also take note of any special requirements of the agency regarding future placement.

A Proforma will be sent to the agency Supervisor at the end of each semester to help them to evaluate the student’s work. The broad categories in the Proforma are:

1. Nature of work assigned to the students in both the terms (separately)
2. Expectations of the agency from the student in both the terms
3. Activities / programmes taken up by the student during the course of the year
4. Social Work techniques / methods / skills applied by the student while working in the field e.g. interactional skills, reporting skills, service delivery skills and evaluatory skills and emotional skills in working with client systems
5. Brief comments on student self-discipline (regularity, punctuality)
6. General comments on students’ strengths and areas to be strengthened
7. Note on Agency’s expectation from the Department whether they were met/not met and any suggestions for future placements.

Agencies are also suggested to organise a sharing session between agency staff, student and Department Supervisor at the end of each Semester. In this session students could make a presentation of work done and nature of learning he/she has had. This could be followed by comments of agency staff (including agency supervisor) about students work performance and scope for improvement in future. Department Supervisor could be a non participant observer or may intervene if requested to. This would give a chance to the students to know the general reaction of agency’s staff towards his/her work, his/her general behaviour and scope for improvement.
Evaluation:

The process of evaluation is an important aspect of training. It helps the students in developing awareness necessary for the development of a professional social worker. It is continuous in nature and is an on going teaching-learning process. It is a shared process throughout the placement involving the analysis of the students’ performance and progress with a view to help students enhance their learning and competence as social worker.

Evaluation is not only limited to the written and formal monthly, mid-term and final evaluation, but also is implicit in every weekly individual conference. Therefore, the Department supervisor must explain the evaluation process to the student in the beginning of the academic session.

Process of Evaluation:

The process of evaluation is continuous in nature. At the end of every week the department supervisor writes the comments indicating the work done by the student vis-a-vis the learning requirements. It is shared with the students in the individual conference and is signed by both i.e. the supervisor as well as the supervisee.

Before appearing the viva voce evaluation the student is asked to prepare a summary of the work done by him/her throughout the Semester.

Field work carries 100 marks in each Semester. The work of student is subjected to evaluation by both internal as well as external examiners. This is treated as final marks secured by the student. It must be noted that revaluation of field work programme is not permitted in Gujarat University. Those students who fail in field work have to repeat the entire semester Field Work. However, if a student has passed theory papers, but has failed to get minimum marks in field work, he/ she is required to repeat only field work. But he/she has to enrol as a regular student. Minimum pass marks in field work is 50%

Practice Skills Laboratory: (Urban Community)

The Lab provides structured experiences which gives an opportunity of “learning by doing” in a supervised environment. Learning about social realities, others and self is essentially through inputs, group experiences and simulation games. The lab sessions equip students with knowledge, attitudes and practice skills in keeping with social work values, beliefs and ethics. The students get exposed to rural realities existing in society, a critical analysis of such situations and the need to work towards human development. The lab consists of sessions on:

1. Communication skills and Interpersonal Relations
2. Analysis of Indian Society and Social Problems
3. Leadership and Personality Development
4. Values and Ethics in Social Work
5. Reality walk – meeting Social Work Professionals

Observation Visits:

The Observation Visits aim to make the students get oriented to the objectives, administrative structure and process and the client system of various organisations in the field of social work, such as non-governmental organisations involved in welfare and development activities, government bodies involved in development work, hospitals and health care organisations, organisations in the care of aged, women and children and Corporate Social Responsibility initiatives of corporate organizations.

Field work schedule

(1) 5 hours/Day
(2) 3 days/week (5 hours x 3 days) = 15 hours/week
(3) 4 weeks/month (15 hours x 4 weeks) = 60 Hours/month
(4) 5 months/semester (60 Hours x 5 Month) = 300 Hours/semester

(5) Minimum 200 hours Field work required for passing in field work practicum.
(6) Daily report has been submitted in next 4 days of field work
(7) Each student has to submit their personal field work summary report in the end of semester for evaluation purpose.
